(54) Title: HOOD

(57) Abstract: A hood (10), for providing protection to a wearer's head, comprises a flexible skin (12) attached to a foldable frame (14, 16, 18, 44, 50, 52, 64) which is unfoldable to a first position where the flexible skin (12) surrounds the head of the wearer but is spaced therefrom to avoid contact with makeup, dressed hair, medical appliances and the like. The foldable frame (14, 16, 18, 44, 50, 52, 64) is foldable to a second position where the foldable frame (14, 16, 18, 44, 50, 52, 64) and the flexible skin (12) are disposed against the back of the wearer. When in the second position, the foldable frame (14, 16, 18, 44, 50, 52, 64) can be further folded to a stable reversible flexed position and stored with an zip pocket or pouch (58) with the flexible skin (12). The frame (14, 16, 18, 44, 50, 52, 64) can be permanently or removably attached to a garment (24). The frame (14, 16, 18, 44, 50, 52) can be pivoting from position to position on a hinge (20) on either side of the collar of a garment. The flexible skin (12) can be replaceable.
